ANYA HIROTA

SOFTWARE ENGINEER

anyahirota@gmail.com ✳ +1 415-889-0667 ✳ <u>LinkedIn</u> ✳ <u>Website</u> ✳ <u>Github</u> ✳ San Francisco

SKILLS

PROGRAMMING / TECHNOLOGIES / TOOLS - JavaScript, React, Node, HTML, CSS, Redis, C#, .Net, Azure, TypeScript, Ruby, Rails, Docker, Redis, Ramda, SQL, GraphQL, Git, Microsoft SQL Server, MSAL, DevExtreme, Recharts, Postman, Azure DevOps, Github, VSCode, Visual Studio 2019, Trello, JIRA, BitBucket, Firebase, Swift, Xcode, SharePoint, Power Automate, BitBucket
SOFTWARE DEVELOPMENT - Agile, Kanban, Waterfall
OS - Windows, Mac OS, Linux
BUSINESS DOMAINS - Portfolio Management, Investment Operations, Data Operations

EXPERIENCE

SOFTWARE ENGINEER   San Francisco, USA
HALL CAPITAL PARTNERS LLC
Jan 2021 - Present

✳ Design and build internal and external web applications that support financial and portfolio management operations
✳ Interface with various nontechnical organizational leads including managing director of investment operations and business intelligence to roadmap and define project timelines and new feature specs
✳ Lead technical meetings including daily project standup and project demos
✳ **Notable projects**:

- **Client-facing dashboard application** for visually tracking client portfolio from inception to current date;
  Contribution: Current full-stack lead for production support and new feature builds
  Built using React UI (leveraging MSAL, Ramda, Recharts) , Apollo GraphQL API, Node ETL (soon to be C#) , Redis cache, MSQL, Docker, deployed and managed via Azure cloud services, Azure Devops pipelines, and Terraform
- **Inbox application** for client email filtering, tagging, securely disseminating client information
  Contribution: Version 1 front-end lead
  Built with React UI, interfacing with Microsoft SharePoint, Power Automate, and internal C# .Net employee data API, deployed and managed via on-premise production server and Azure Devops pipeline and release feature
- **Data operation approval tables** for tracking and approving incoming holding level information
  Contribution: Ongoing production support and new feature build contributor
  Built with C# backend and JavaScript front end within .Net framework
- **Client billing review application** for creating and approving quarterly financial reports
  Contribution: Version 1 full-stack contributor
  Built PDF creation / approval table features using C# .Net API and React UI (leveraging DevExtreme)

SOFTWARE ENGINEER INTERN   Yokohama, JP (REMOTE)
PREAPP CO., LTD
Nov 2020 - Jan 2021

✳ Designed/built an inventory tracking web application using Firebase, React, and SmaRegi cloud POS system
✳ Autonomously organized and managed own Git workflow and project timelines using Atlassian's JIRA and BitBucket

EDUCATION

APP ACADEMY - Immersive software development course with focus on full stack web development *(September 2020)*
UNIVERSITY OF KENT - B.A. Business Management with Global Industries at Pearson Business School *(April 2020)*
UC SANTA BARBARA - B.A. Communication, Unfinished due to Transfer *(January 2017)*
       ✳ Honors Program; UCEAP: **Freie Universität Berlin** (2016); **University of Osaka** (2016)
CERTIFICATION: Certified Associate in Project Management (CAPM) *(Certification Authority: PMI, 2019)*
